LongiGrate Assembly Instructions

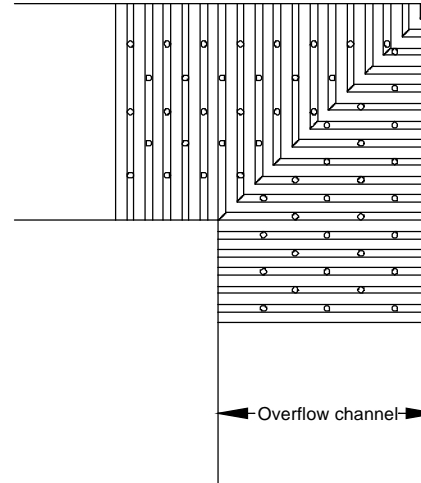

General Sketch

One Swimming Pool need:

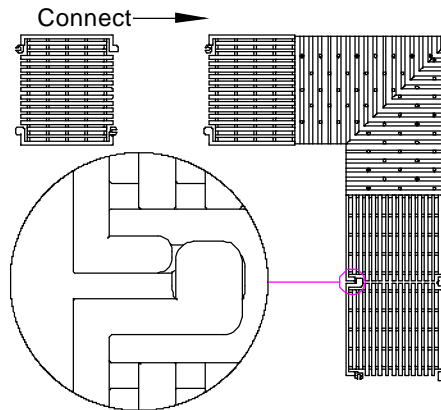

4 FRP Corner Gratings
8 LongiGrates trimmed on one side
Sufficient LongiGrates

Step 1

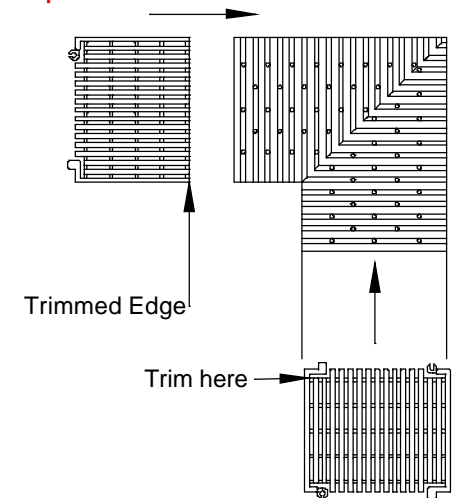

Place 1 Corner Grating in the corner of the overflow channel.

Step 3

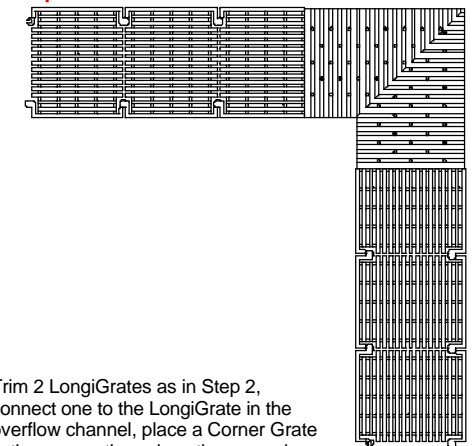

Connect a LongiGrate to each trimmed LongiGrate in the overflow channel as shown, then continue connecting LongiGrates until each of the corners is approached.

Step 2

Trim 2 LongiGrates on one side as shown, Place each LongiGrate in the overflow channel so that the trimmed side is hard up against the Corner Grate.

Step 4

Trim 2 LongiGrates as in Step 2, connect one to the LongiGrate in the overflow channel, place a Corner Grate in the corner, then place the second trimmed LongiGrate beside the Corner Grate as in Step 2, now connect a LongiGrate to the trimmed LongiGrate as in Step 3 and continue until the corner is approached. Repeat this step, and finish off by trimming 2 LongiGrates as in Step 2, connecting them to the LongiGrates in the channel, and placing the last Corner Grate in position.
