General Guidelines for installation

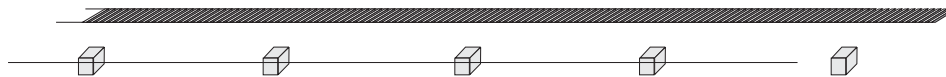

Official Supplier
of Aquatics and
Waterpolo
Equipment
to the Sydney
2000
Olympic
Games

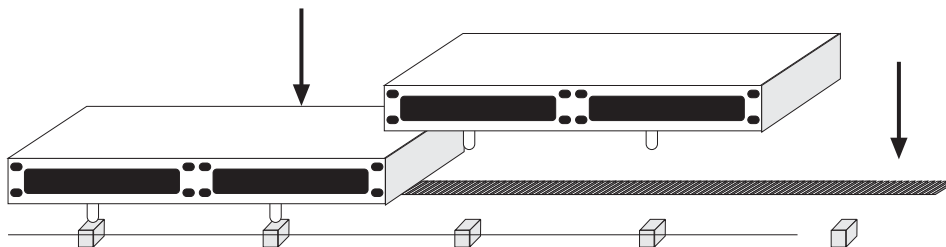

1. Fit front leg extensions to pool face of EndWall using 4 bolt, nut, & washer sets for each extension.

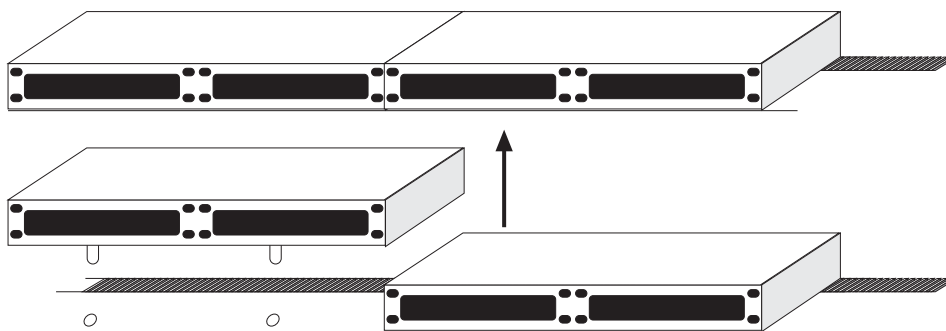

2. Use completed unit to confirm position of deck holes in concourse.

3. The concourse has wooden blocks cast in to the approximate positions of the deck holes. Remove these blocks and fix deck holes into precise position. (See separate sheet for Deck hole installation.)

4. Mount Endwall sections in deck holes and leave in position until cured.

5. Remove Endwall sections to fit grating.

7. Screw grating panels to front of EndWall units.

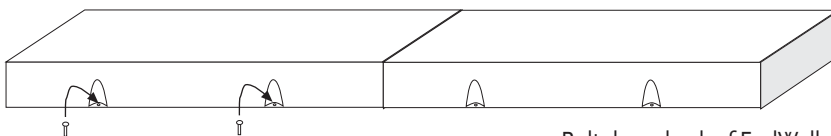

8. Fit EndWall units into deck holes on concourse.

9. Confirm position of Dynaset anchors at rear of EndWall units.

10. Fit Dynasets according to manufacturer's instructions. (See separate sheet.)

11. Bolt down back of EndWall units into Dynaset anchors.
